

Bzzz! 2

The world would be a poorer place
if bumble bees were thin;
and if they soared with greater grace
we would no longer grin.

Fashion gurus told the bee
that it would look less plump
if all the yellow stripes we see
did not go round its rump.

Just wear your stripes from head to sting
to make yourself look taller.
Even without dieting
your girth will seem much smaller.

They missed they point, they couldn't see
the thing that makes us smile
is how he gets his food for free
with no regard for style.
